## 1. Nature of the Incident

An in-band SQL Injection attack (CWE-89) was intercepted against endpoint `/api/orders` (Payload: `' UNION SELECT username, password FROM users --`). The query was quarantined to an isolated synthetic honeypot table. No genuine database records were exposed.

## 2. Data Access Event (captured at time of download)

| | |
|---|---|
| Timestamp | 2026-10-16 00:42:53 |
| Source IP (as seen by server) | 152.57.97.174 |
| ISP / Organization | Reliance Jio Infocomm Limited |
| User-Agent | python-requests/2.32.3 |
| Data served | Synthetic decoy dataset (honeypot); all sensitive fields SHA-256 hashed before export — no |

Note: any apparent IP masking (e.g. VPN) affects only the client-side display — the server-observed source IP above reflects the actual network connection used to request the data.

## 3. Attacker Attribution (Canary-Token Confirmation)

| Timestamp | IP Address | ISP / Org | Screen | Timezone | Platform |
|---|---|---|---|---|---|
| 00:42:53 | 152.57.97.174 | Reliance Jio Infoc | 2560x1440 | Asia/Kolkata | Linux x86_64 |

The attacker's apparent network location was masked at first login (e.g. via VPN/proxy). A canary token embedded in the decoy data export phoned back when the attacker opened/previewed the file, revealing the true connecting IP address and device fingerprint captured above -- via ordinary browser JavaScript in that one preview tab, no exploit involved.

## 4. Data Categories Potentially at Risk (if defenses had failed)

Name, phone number, email address, Aadhaar number, PAN, postal address, and partial payment card details -- all categories of personal data under the DPDP Act, 2023.

## 5. Remedial & Preventive Measures Taken

• Suspicious session automatically isolated to a decoy data environment.

• Real-time alert generated to the Data Protection Officer / admin.

• Attacker source attributed via canary-token forensic technique.

• Report auto-generated and logged as submitted to the Data Protection Board.

• Incident logged for audit trail and regulatory reporting.
